

# Assembly Instructions

A40

## For Adjustable Fixtures Shipped Knocked Down

### To Assemble

1. Carefully slide stem (A)—threaded end first—over fixture wires.
2. Apply a drop of the supplied thread locking compound to the internal threads at the top of the fixture (B) and screw stem into fixture, being careful not to twist the wires.

**Note:** Application of the thread locking compound is necessary to prevent the stem from loosening during regular maintenance and cleaning of the fixture. Be certain to apply the compound.

3. Refer to canopy attachment and installation instructions to complete the installation.

*This illustration represents a typical fixture and may not match every style.*

*If you need further assistance, or find that you are missing any parts, please contact the dealer from which you purchased this product. We hope you enjoy your fixture!*
